Consumer Directed Personal Assistant: means an adult who provides consumer directed personal assistance to a consumer under the consumer's instruction, supervision and direction or under the instruction, supervision and direction of the consumer's designated representative. A consumer's spouse, parent of minor child or designated representative may not be the consumer directed personal assistant for that consumer; however, a consumer directed personal assistant may include any other adult relative of the consumer who does not reside with the consumer or any other adult relative who resides with the consumer because the amount of care the consumer requires makes such relative's presence necessary.
